ADVANCED IMAGING SYSTEMS

Our objective is to put our customers first and we strive to provide them the best quality and service. We give an unconditional guarantee on all services provided by AIS. We always strive to be the best for our clients. We provide innovative document management solutions using digital technology. With these solutions we provide our customers with satisfaction enhancing their efficiency and productivity. We can scan your documents either in house with our hardware or off site, data entry, disaster recovery, vault storage and any other solution our customer sees fit. We guarantee our customers will be 100% satisfied with our job quality. In the rare occasion that our work does not meet our customer's standard, we will go above and beyond to reprocess that work at no cost to our customer. Our commitment to excellence by both management and staff at Advanced Imaging Systems is what guarantees our objective of meeting your needs today, tomorrow and in the future. Our primary focus is to provide you with the absolute best in service, products, and pricing. This quality and value of commitment ensures that we go the "extra mile" for everyone.

ADVANCING NC WHOLE HEALTH COALITION

Advancing NC Whole Health Coalition is a new partnership to leverage strengths and expertise in response to Medicaid reform. The coalition will unite the efforts of three high-performing MCOs—Vaya Health, Trillium Health Resources and Alliance Behavioral Healthcare—to address significant, statewide health policy issues that impact North Carolinians across the state. Advancing NC Whole Health is in alignment with the Medicaid Reform plan proposed by the NC Department of Health and Human Services. Through the formation of the coalition, we seek to have a stronger voice in advancing the role of the public behavioral healthcare system in Medicaid Transformation, helping ensure continued stability and continuity of care for the people they serve. The combined provider network of the MCOs will enhance access to a diverse range of services and supports to people in both urban and rural areas of the state. It also has the potential to provide more seamless access to services to all of the entities that ultimately are part of North Carolina's evolved Medicaid landscape. Our leadership identified this coalition as the most effective way to demonstrate to NC DHHS, the General Assembly and potential commercial healthcare partners that MCOs can successfully implement Medicaid Transformation in a way that advances high-quality care, improves population health, engages and supports providers and establishes a sustainable program with predictable costs (a four-prong approach known as the Quadruple Aim).

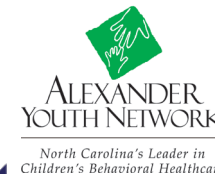

ADVANCING NC WHOLE HEALTH COALITION

ALEXANDER YOUTH NETWORK

Alexander Youth Network is North Carolina's leader in children's behavioral healthcare, serving more than 8,000 children annually. We provide quality outpatient, residential, and community-based services at locations throughout the state. Alexander created a model of care designed to help kids overcome the effects of trauma on their brain development. Our highly specialized assessment tells us precisely where roadblocks occurred in that child's brain development and gives our experts a roadmap for prescribing targeted activities. Children and their families can find all the services they need within our network rather than having to seek out multiple providers. Relationships and trust established at Alexander remain intact and children heal and grow so they can get back to the business of being a kid.

OLD VINEYARD BEHAVIORAL HEALTH SERVICES

Old Vineyard Behavioral Health Services is a hospital that specializes in the behavioral health patient population. Through inpatient care in a crisis or outpatient care for life management, Old Vineyard provides different levels of care to fit individual needs. Located in a peaceful, campus-like setting, the Winston-Salem facility is accredited by The Joint Commission. Our inpatient 164-bed hospital has services for adolescents (12-17) and adults, with specialty adult programs for Seniors, Trauma Recovery, and Dual Diagnosis with Substance Use. Our outpatient programs include Partial Hospitalization Programs for Mental Health and Dual Diagnosis (day programs), and an Intensive Outpatient Program (morning). We are committed to a patient experience which involves a variety of therapeutic techniques including behavioral therapy (CBT and DBT), recreation therapy, pet therapy, and yoga (in our trauma program). Our Partial Hospitalization Programs are adult day programs that typically last two weeks. Individuals in PHP meet daily to focus on coping skills relating to interpersonal effectiveness, stress tolerance, emotion regulation, and mindfulness. This program also involves a psychiatrist for medication management. In addition, Old Vineyard has an Intensive Outpatient Program with a licensed therapist that meets three mornings each week. Old Vineyard accepts most major insurance plans including BCBS and Medicare, and is in-network for Tricare. Our admissions department is open 24/7 for free confidential assessments and referrals. We encourage appointments to expedite your visit; however, walk-ins are welcome.

THERAP SERVICES, LLC

Therap Services, LLC is the nation's leading web-based software solution that provides an integrated, HIPAA secure, HIE Compatible, ONC-HIT Certified system for the documentation, reporting, billing, and communication needs of agencies providing support to people with disabilities, especially intellectual and developmental disabilities. It offers an easy and efficient alternative to the immense amount of paper work that is done manually by support providers. Therap's suite of applications includes Individual Service Plans, Personal Outcomes Tracking, Incident Reporting, Health Tracking, Medication Administration Records, Billing and much more. Come visit our Exhibit booth #3 this year in Pinehurst to see why around 2,000 providers nationally and 40 providers in North Carolina use Therap Services as their EHR solution.

TURNING POINT FAMILY SERVICES

Turning Point Family Services was established in 2002 to provide a therapeutic environment for children and families. Our program is person centered and strives to meet needs in a community-based setting. We believe a customized approach better serves children and families allowing for adaptations as necessary for special needs. Our programs and services are provided in a manner so that each individual's strengths are identified and built upon to improve self-esteem and help promote healthy relationships.

VERTESS

Vertess is a healthcare merger + acquisition and consultation firm with a successful track record in the national I/DD and behavioral healthcare marketplaces. Our Managing Directors, Tom Schramski and Josh Boynton, have each launched, built, and successfully exited their own healthcare companies, giving us a unique perspective on what's important for today's executives and owners. We not only understand the I/DD and behavioral healthcare marketplaces, we know where they're headed.

VILLAGE BEHAVIORAL HEALTH

Village Behavioral Health offers an ideal setting for adolescents ages 13-17 to begin facing their difficulties free from distractions. Our program's goal is to help teenagers make better choices by helping them understand how poor choices have affected them in the past. VBH provides a safe, secure, and serene setting to allow treatment to truly begin. VBH serves males and females with an IQ of 70 and above with a primary Mental Health or Substance Abuse Diagnosis. We provide 24-hour supervision and an intensive therapeutic experience. Adolescents engage in individual therapy, group therapy, family therapy, activity therapy, a vocational/Activities of Daily Living (ADL) program, and a full academic program during their stay at VBH.
