i2i Center for Integrative Health convenes healthcare leaders to solve the most important issues affecting behavioral, intellectual and developmental disabilities (I-DD) and primary healthcare in North Carolina. We help diverse organizations collaborate and resolve critical policy issues.

OUR MISSION

To foster collaborative and evidence-based initiatives for improving the quality and efficacy of the behavioral health, intellectual and developmental disabilities, and substance use care and support services systems within a comprehensive system of whole person care.

OUR STRENGTH

The establishment of the i2i Center for Integrative Health represents the evolution of the NC Council of Community Programs' 34 year legacy of collaboration and advocacy in addressing behavioral, I-DD, and primary healthcare. With a newly appointed board of healthcare and industry leaders, i2i provides a unique opportunity to bring together a broad spectrum of leaders who share the goal of ensuring effective whole person care within the publicly funded system.

We invite you to join with us.

Collectively, our team has over nine decades of state and national experience in physical, behavioral and I-DD healthcare and proficiency in helping diverse organizations collaborate, communicate, and resolve critical policy issues.

i2i will **Convene** a broad spectrum of stakeholders to address policy, **Strategize** around critical issues and **Activate** solutions to ensure quality, whole-person care.

OUR SUCCESSES

- **As leaders and advocates** for North Carolina's 1915(b)(c) Medicaid waiver for behavioral health and I-DD, our team initiated the first standing meetings of provider and LME-MCO leaders, resulting in standardized business practices and improvements in monitoring. These efforts received state approval and provided much needed stabilization across the system.
- **As facilitators**, our staff has a well-respected track record for convening policy implementation workgroups. For over two decades, our forum work with Department of Health and Human Services leaders and staff served as the venue to deliberate and implement state and legislative requirements in order to ensure state and federal compliance.
- **As conveners**, our statewide conferences and meetings serve as the premier opportunity for providers, managers, advocates, and stakeholders to come together to learn and network. For 20 years, our Pinehurst meeting has consistently been the place for state influencers to gather to deliberate and understand the many changes taking place in our system of care.

i2i needs your financial support as we convene issue-focused and solution-oriented forums to address whole-person care and integrated services for citizens receiving MH/I-DD/SUD services. **Together**, we will work to ensure a positive public-system transformation that moves us toward quality, whole-person care.

i2i Center for Integrative Health is a tax exempt 501(c)(3) non-profit organization.

Corporate Support & Benefits
